LUCIANA

Tudor

THE ARTIST

## I draw pretty pictures and stuff

Well, there is more to me than that. I am passionate about my work, find inspiration in just about everything, and dream a lot. Essentially communicating through my art as way to express emotion, I equally enjoy catering to an audience. Always growing as an artist, there are two mottos I stick by: **Use your talent** and **No fear**.

## Who is Lulu?

I hold a TAFE Cert III in Graphic Arts and Multimedia, BA Hons in English, and have recently completed a 3D Animator's course at MAD Academy.

Having always been a traditional artist, I finally stepped outside my comfort zone and was pleased to discover that technology was not all bad. The Digital Arts Industry had me hooked. I am now head over heels for my new found medium, but DAI doesn't even know I exist - thus my love is unrequited.

In this scenario, I am the eager-to-please girlfriend while DAI is the zoned-out boyfriend, watching the footy as I nag that he never listens to me.

Lucky for me, I am blessed with patience! I cannot imagine doing anything else with my life other than exploring my talent in art.

I believe the things you love are worth fighting for. I'd never accept a career that I could easily do with my hands tied behind my back. I need to be challenged and inspired, with my ultimate goal to make an impact.

Best part? You can't retire from art!
